

Weather Guard

Spray on Rubber Coating – Weatherproof and Waterproof

Weather Guard can be applied to any surface to provide a rubberized body that adheres with an extremely tight bond. Weather Guard is a waterproof, flexible and permanent rubber coating that will act as a barrier against moisture causing rust and corrosion, even when totally submerged. Dries crystal clear and will not discolor or harm any surface. Can be removed with paint thinner. Lasts up to 2 years and has a shelf life of 5 years, guaranteed.

Applications:

- Outdoor electrical locksets
- Electrical connections*
- Protection against rust and corrosion
- Electrical connections
- Nuts and bolts
- Cable connections
- Exposed metal
- Motor connections*
- Circuit Boards
- Outdoor lighting
- Security systems
