

LEVER RETROFIT

“HANDI-LEVER” Retrofit

*The easy, cost effective way to convert existing door knobs to levers.*

*Features*

- Opens with one easy motion, no gripping or twisting necessary
- Does not interfere with existing lock mechanism
- Saves up to 50% to 70% of the cost of a new lever/lock system
- Installs in a matter of minutes — no special tools required
- Strong, heavy-duty cast aluminum
- Requires no modification to existing doors and locks
- Slips easily onto existing conventional round door knobs
- Available in right and left hand models
- Sold in pairs for converting both sides of a door
- 4 sizes to fit any standard door knob: 2", 2<sup>1</sup>/<sub>8</sub>", 2<sup>3</sup>/<sub>16</sub>", 2<sup>1</sup>/<sub>4</sub>"
- Designed to conform with the Americans with Disabilities Act (ADA) and Federal Section 504
