

KEY RINGS & ACCESSORIES

Hide-A-Key

It's the "Original"

The magnetic key holder known the world over! Made in the U.S.A., the original Hide-A-Key features the extra powerful, double size magnet not found on other domestic and imported brands. Don't settle for anything less than the original Hide-A-Key!

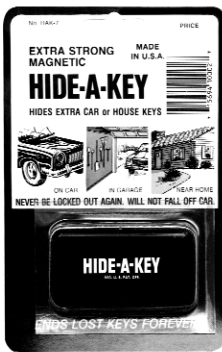

HAK-1

ESP's popular self-selling point of purchase display. This attractive 11 1/4" x 14 1/8" metal display stand comes with one dozen Hide-A-Keys magnetically attached

HAK-3

Individual Hide-A-Key packed in its own small white box. 2 dozen per box.

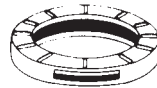

HAK-7

Attractive 4" x 6" blister cards with illustrations. Contains 1 Hide A Key per card, 12 cards per carton.

Identa-Key

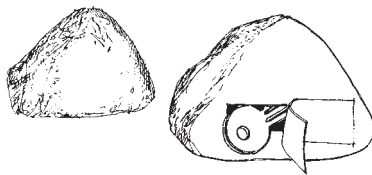

Here's the answer to colored keys. Made of rubber-like vinyl, Identa-Keys will stretch and conform to fit snugly over virtually all key head sizes. Available in 8 brilliant, fluorescent-like colors, they provide a permanent, innovative method for your customers to distinguish one key from another. It's the perfect way to combine the high quality of brass keyblanks with color.

ESP IDK-1

This attractive, eye-catching display literally works as an extra salesman! Stocked with 200 Identa-Keys, 25 each of 8 colors, this compact unit will pay its way tenfold! Colors: red, blue, green, orange, black, brown, grey and yellow.

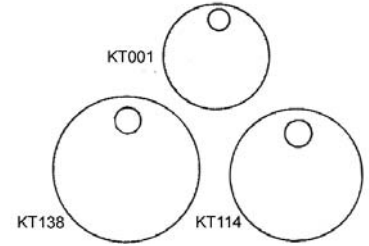

Keystone

ESP KST-1

It looks like a ROCK, feels like a ROCK... but it's really a very clever way to secretly hide your house keys. The exciting new KEY-STONE is actually a key container which has a key holding slot in the bottom. The key is held firmly in the slot with a plastic lid. The Keystone can be completely camouflaged by placing it among other stones and rocks so that it appears to be part of the natural setting in a yard. The Keystone is packed one per display box, 36 pieces per case.

Brass Key Tags

Part No.	Diameter
ESP KT001	1"
ESP KT114	1 1/4"
ESP KT138	1 3/8"

ESP offers 3 various sizes of Key Tags, all solid brass, all .040 inches in thickness. Packaged in boxes of 100 each, they're the popular sizes — the ones that represent the bulk of your sales.

LOCKSMITHING TOOLS

Sesamee Decoder

ESP SD-7

This tool was designed to decode the exact combination of a Sesamee padlock without drilling or damaging the padlock in any way! The easy to follow instructions and detailed illustrations included in the tool package assure success every time.

Pin and Plug Deburring Tool

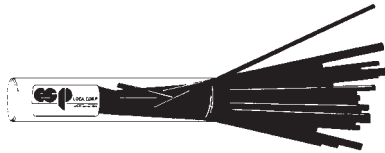

ESP DB-1008

Here's a double-duty tool no professional Locksmith should be without. Whether you're working on new or old cylinders, the DB-1008 will prove invaluable. One end of the DB-1008 allows you to deburr the pin holes in the plug. This assures that pins won't stick and both top and bottom pins will sit evenly. The other end of the tool allows you to deburr pins you've filed, for smooth positive action in the cylinder. Using this tool gives all your rekeying work the touch of a professional.

LOCKSMITHING TOOLS
Universal Follower & Instant Master Pin Removal Tool

ESP MP-120

The MP-120 has all the features of a regular following tool—PLUS MORE! This tool assures a fast and efficient method of removing just the master pins in a cylinder while leaving the top pins in place. It saves you hours of precious time in rekeying master pinned cylinders. What's more, the MP-120 can also be used as a regular following tool on non-master keyed cylinders. It's as if you're getting two tools for the price of one!

Flat Spring Steel Assortment

ESP FSA-50

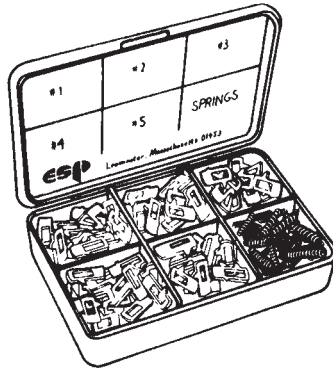

Here's a Flat Spring Steel Assortment featuring the most popular sizes of spring steel used in making springs for various mortise locks and other security products.

Packed in a durable, see-through plastic tube, the FSA-50 includes the 5 most popular sizes of spring steel, cut in 6" lengths for easy handling and storage.

Spring Wire Assortment

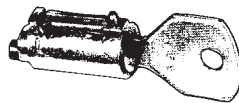

The SWA-100 is a Spring Wire Assortment which features the most popular sizes of round spring wire used in making springs for various mortise locks and other security products. The SWA-100 is packed in durable plastic see-through tube for easy handling and storage, and includes 15 pieces each of the 7 most popular thicknesses of spring wire. What's more, all pieces are 12 inches in length, the length most requested by locksmiths. A convenient package, the SWA-100 puts various sizes of spring wire immediately at your fingertips in an easy to handle tube.

Part No.: ESP SWA-100

LOCKS & ACCESSORIES
Cam Lock Rekeying Kit
