

**LOUVERS**

*For industrial, construction, and electronics applications.*

Midget Louvers help to eliminate heat and moisture in office buildings, homes, boats, aircraft, and other enclosures sensitive to excessive humidity. Midget Louvers are specifically recommended to correct problems with blistering and peeling of paint, rotting and warping of wood, and corrosion of metal.

**Regular Series Louver**

This is the original all-purpose Midget Louver designed for indoor and outdoor use. The louver includes a water deflector and screen, making it ideal for situations where insects and rain are a problem.

Part No.	Description
MID 1 REG	Louver
MID 1 1/2 REG	Louver
MID 2 REG	Louver
MID 2 1/2 REG	Louver
MID 3 REG	Louver
MID 4 REG	Louver

**LD Series Louvers**

Useful where there is no direct contact with rain or other water sources, this louver features a screen only. Interior applications include basement walls, closets, bathrooms, kitchens, and boats. Can also be used effectively in the wide overhangs of houses and in soffits.
